

ZWARTKOPS
driver training

**Learn Skid Control
with the SkidCar™
Special at Zwartkops**

6056 Busiforms: 082 896 1313

Zwartkops Driver Training (Pty) Ltd is offering an exciting SkidCar™ and Road Risk course.

The course consists of an hour long seminar covering the risks drivers face on the road followed by practical training in the SkidCar™ to familiarise drivers with the oversteer skid. The duration of the course is 2½ hours. The courses will be offered during special periods allowing students and other drivers who have time constraints to attend when convenient - day, evening and weekends.

As stated by Dave Johnston, MD of Zwartkops Driver Training (PTY) Ltd "with the many different types of hazards and risks facing drivers on the road, every driver should attend this course to reduce the chances of being involved in a crash. It will also make drivers more aware and confident once the risks are understood. Every driver, irrespective of his or her driving experience, will benefit from this course".

In a specially designed and patented adaptation to an everyday use road car Zwartkops Driver training Centre has created a SkidCar to be used for Driver Training. The Skidcar concept enables drivers to learn the concept of over steer under very safe conditions and at low speeds.

Whilst the SkidCar concept will not replace the Skidpan wet road learning techniques it will go a long way towards bringing basic road skills to the everyday motorists at an effective level and affordable cost. The SkidCar will complement the Zwartkops Driver training in association with AA Driver Training Programs at Zwartkops. These programs are implemented both on and off site at Zwartkops.

With the SkidCar concept Zwartkops Driver Training Centre can assist drivers in learning the basics of skid control skills so that they are suitably equipped to deal with emergency situations. By simply observing the skid marks on our roads, there is a huge need for drivers to be better educated in the basics of vehicle control.

The courses are outcome based, which will ensure that OHS Act requirements are also being complied with by Employer Groups who delegate their employees to attend the courses.

HOW TO GET TO ZWARTKOPS RACEWAY

There are a number of ways to get to Zwartkops from.

The most common way is past Kyalami - just keep going for 26km on the R55 Pretoria West. This road can get full on big international race days.

From Johannesburg, get onto the Krugersdorp Highway and head North. Take the R55 off-ramp and turn left at the stop street. Keep going straight through the traffic circle, and after about 10 minutes you will reach Zwartkops on your left.

The next best alternative route is through Erasmia. Take the M26. This is the road that goes past Deep Sloot (William Nicol R511) becoming the M26. Just follow this road through to Erasmia - look to your right and there is Zwartkops. At R55 T-junction (robot) turn right. Zwartkops is on your right.

From Pretoria - go past the old Iscor steelworks follow the R55 South past Laudium.

From the East Rand - on the R21 - pass over the Pietersburg/Pretoria Highway (M1). Take the next turnoff (M10 Hans Strydom Drive) - turn left at robot towards Pretoria West. Follow the M10 - At the 8th robot turn right (R55) - Zwartkops is on your left ±2km.
